Additional notes

The information above and any vehicle specifications in the release are preliminary and subject to change.

¹ Always obey all local speed and traffic laws.

² Top speed electronically limited in U.S.

³ Summer performance tires may ride less comfortably, make more noise, and wear more quickly than other choices. To avoid tire, rim, or vehicle damage, it is important that inflation pressure is regularly checked and maintained at optimum levels. High-performance tires are designed for optimum performance and handling in warm climates and are not suitable for cold, snowy, or icy weather conditions. When driving during cold, snowy, or icy weather conditions, ensure that your vehicle is equipped with appropriate all-season or winter weather tires. Tires are supplied and warranted by their manufacturer.

⁴ Maximum tow rating when properly equipped with towing accessories. Vehicle load, other accessories and options may reduce maximum towing capacity. See vehicle owner's manual for details.

⁵ EPA fuel economy estimates for the 2027 Audi Q9 and SQ9 are not yet available and will be provided closer to the vehicle's on-sale date.

⁶ Additional details and coverage information for Audi Signature Care scheduled maintenance are provided within the 2027 Warranty and Maintenance booklet. Audi Signature Care honored at all authorized U.S. Audi dealerships. Actual scheduled maintenance services vary based on vehicle model, model year, and mileage. See vehicle Owner's Manual for details. Replacement parts and labor may cost additional. Roadside Assistance provided by an authorized third party. May require additional payment for services rendered. Visit audiusa.com/en/support/help/roadside-assistance/ for covered services, limitations and additional details. See owner's literature or dealer for warranty exclusions and limitations.

⁷ Starting MSRP pricing excludes destination, taxes, title, other options and dealer charges. Dealer sets actual price.
